Subject: Victory Janitorial service

Hi Joe

I wanted to let you know what a great job the Victory crew did in cleaning up our offices following the water damage earlier this week.

Matt and his crew were quick to begin the process of drying out the carpeting and water soaked items. They asked questions before moving or tossing anything and helped replace items once they were dried out. They were even able to save most of the reams of paper and reference books that were wet -- a great surprise for us.

We appreciate the use of the air purifier to alleviate concerns over air quality/health issues. The Victory crew was professional and courteous and got the job done quickly.

It's good to know there is a local company providing this type of service. I would not hesitate contacting them again if a similar situation would arise.

Kerri
